

Epson LabelWorks Pro100 Supplies

Creating the perfect-sized label for whatever you need is easy, as you can choose between 50mm and 100mm wide plastic signage labels, or the specially pre-cut paper labels.

The LabelWorks Pro100 is the market's first label printer to use Polyethylene-based Olefin plastic labels. Choose from seven different coloured plastic labels and five different coloured ink ribbons to create a wide range of colour combinations. Create reliable and durable signs and labels, from hazard signs to identification labels, around the office, warehouse and similar environments.

Pre-cut paper labels are ideal for temporary maintenance and security stickers, as well as shipping and address labels. Each roll has 510 identically sized labels (90x45mm) that allow you to print black text, icons, borders and barcodes.
